THE RAMEN GUIDE
HOW TO EAT RAMEN LIKE A PRO

Finish your ramen within 7-8 minutes. The noodles will soak up too much broth if left too long.
Mix it up. The Soul of ramen is retained with a proper balance of broth, sauce, oil and noodles. When this balance is lost, we no longer call it ramen.
Slurp your noodles. The art of slurping is a well-mannered, cultivated and refined way of eating ramen.
Turn off distractions. The most authentic way to eat ramen is to slurp in silence.
Drink the soup. It's our Kyouka famous recipe made fresh daily! But it is okay if you can't - we won't be offended.
